

Crandall Corporation

SP2 Training

AIG and Allstate Direct Repair Programs

Crandall Corporation is an approved training vendor for AIG and Allstate PRO direct repair programs. Our compliance staff has over 200 years of work experience in the safety and environmental fields and has bachelor and master degrees in a variety of science disciplines, including industrial hygiene.

Crandall Corporation offers the SP2 training in several venues that best suit your needs:

CD-ROM
On-line
In person

The interactive CD and online versions offer a cost-effective alternative that can be completed at your own pace. The training includes a brief examination to verify comprehension of the subject materials presented.

Program Coursework Includes:

Technicians and Painters

- Emergency Action Plans and Fire Prevention
- Occupational Noise Exposure/Hearing Protection
- Personal Protective Equipment
- Accident Prevention Signs & Tags
- Lockout-Tagout: Control of Hazardous Energy
- Portable Fire Extinguishers
- Powered Industrial Trucks (forklift)
- Hot Work: Welding, Cutting & Brazing
- Bloodborne Pathogens
- Hazard Communication: Right to Know
- Handling and Disposal of Wastes
- Requirements for Motor Vehicle Air Conditioners (MVAC) EPA 608 & 609

Management

- Recording & Reporting Occupational Injuries & Illnesses
- Employee Exposure & Medical Records
- Management & Reporting of Hazardous Waste

Once you complete the training, Crandall Corporation will send you an annual reminder that your personnel are due for refresher training.
